The Harvest in the North
From the last days of May to the end
of July in the northern part of this land
the sun shines day and night upon its
mountains, fields, rivers, lakes, forests
valleys, towns, villages, hamlets, and
farms and thus Sweden with a
way may be called the land of the
night sun. During this period of con-
tinuous daylight the stars are never seen
the moon appears pale and sheals to
light upon the earth. Summer is short
giving just time enough for the wild
flowers to grow, to bloom and to
away, and barely time for the husband-
man to collect his harvest, which, how-
ever, is sometimes nipped by a sum-
mer frost.

A few weeks after the midnight sun
has passed the hours of sunshine shorten
rapidly, and by the middle of August
the air becomes chilly and the days
colder, although during the day the sun
is warm. Then the grass turns yellow,
the leaves change their color, wither and
fall; the swallows and other migratory
birds fly toward the south, twilight
comes once more, the stars, one by one
make their appearance, shining brightly
in the pale blue sky, the moon shows
itself again as the queen of the night and
lights and cheers the long and dark days
of the Scandinavian winter.

The time comes at last when the sun
disappears entirely from sight, the heav-
ens appear in a blaze of light and glory
and the stars and the moon pale before
the aurora borealis.—"Land of the Mid-
night Sun."

Wanted to Brush Them Off.
Passing down a quiet street not long
since I saw two beautifully dressed women
approaching. They were clad in deli-
cate colors, and spoke and sang from
head to foot. Between them and moving
a garbage wagon, and just as they came
opposite about two tons of ashes was
hoisted into it with a result to the women
that was detrimental to their appearance
to a marked degree.

"That mean old thing," said one.
"I know he did it on purpose," said the
other.

"My eyes are so full of ashes I can't
see a thing."
"And so is my mouth," said the other.
But the climax was reached when the
driver of the garbage wagon accosted
them, saying:

"Wouldn't yees like me to brush ye
off?"

These two women proved that women's
hearts were beating beneath their dainty
clothes, for they only thanked him lian-
ly, but—refused.—New York Herald.

A Good Judge of Human Nature.
A noted detective of the United States
tells of an incident that occurred on a
train on which he was traveling east-
ward to attend a conference. When the
train had left the second station beyond
D—, the conductor, who came up to
him and said: "Brother C—, there's a
woman in the next car who says she had
her pocket picked since getting on the
train at D— and says she has no money
to pay her fare. Now, as you are a
good judge of human nature, I would
like to have you talk to her and see if
she is a worthy object for a free ride."

The Rev. Mr. C— promptly acceded
to the request and went into the next
car, where the conductor pointed out
the woman in question. Mr. C—
walked leisurely up the aisle, and stop-
ping at the seat occupied by the woman
said: "So, my good woman, you have
met with a misfortune in having your
purse stolen. Would you mind telling
me just how it occurred?"

Just then the woman raised her eyes
and shrieked: "Oh, Mr. C—, please
don't have me arrested. Please don't
arrest me or steal again." Mr. C—, who
was completely dumfounded, finally re-
cognized the woman as a former servant
of a household who had decamped with
a portion of his wife's wardrobe.

HALE METHOD OF PAINLESS FILLING.

NEW DEPARTURE IN DENTISTRY!

DR. PORTER HAS RETURNED for the purpose
of advertising the

"Hale Method of Painless Filling."

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

OFFICE IN SUNDERLAND'S BUILDING, - - - VIRGINIA ST., RENO.

Here are a Few Testimonials from Citizens Who have Already Tried
the Method:

Dr. Porter—DEAR SIR—It affords me pleasure to say that the Hale method
of painless filling opens a new era in the dental world. After having several
very sensitive cavities filled by you with gold and amalgam with gratifying
results, I am of the opinion that the method is far beyond competition.
PATRICK HENRY.

Dr. Porter—DEAR SIR—In answer to your request for my candid opinion as
to the Hale method of painless filling, I beg to state that I went to one of Dr.
Leek's finest operators in San Francisco, and he filled several teeth for me with
more or less pain; but when he came to the one you have just filled, it was
simply impossible for me to endure the torture, consequently I asked him to
stop, which he did. I thought I would be obliged to have the tooth extracted.
I wish to state that in five minutes after you commenced to operate there was
positively no pain. It felt just as if you were cutting a piece of wood. I am so
highly pleased with the manner in which you filled the tooth that I feel it but
just to express my appreciation of the method. It is all you claim for it.
CHARLES HOPE

Dr. Porter—DEAR SIR—I have had teeth extracted before by so-called pain-
less methods, but you are the only operator who has extracted teeth for me
without pain. Your method of extracting surpasses my most sanguine expec-
tations
MRS. H. PRENTISS.

Dr. Porter—DEAR SIR—It gives me great pleasure to state that I am thor-
oughly convinced of the excellence of your method. I expected to suffer dread-
fully having the cavity filled, as it was the worst one I had to have done. In
about five minutes after you began to work on it I was satisfied that it would
not hurt, which it did not during the entire operation. The tooth you extracted
is one I have been dreading for eight years, and after consulting dentists in
Sacramento, who advised me not to have it removed, as the ordeal might prove
injurious to my health and also disfigure my face. You extracted the tooth
without a particle of pain, and I will have no further dread of the dental chair,
providing I can obtain the Hale Method.
MARY E. FLECKENSTEIN.

Dr. Porter—DEAR SIR—After using Hale's Painless Method of filling as administered
by you in the extraction of teeth, I can bear testimony that the results are sat-
isfactory, and that teeth can be extracted painless by said method.
Respectfully yours,
HENRY J. NEYLAND

Dr. Porter—DEAR SIR—I believe that the Hale Painless Method of filling is
destined to lead the world in its special field of usefulness. I am particularly
impressed with it, owing to the fact that one does not lose consciousness while
having teeth filled, and at the same time does not suffer a particle of pain. You
are at liberty to refer any one who contemplates having sensitive teeth filled
to me.
JOHN SHERITT.

NO MORE GOLD AND SILVER THAN
IS REQUIRED FOR MONEY.

The Empire of Finance, a new paper just started in New York city, advocates the use of gold and silver as money, and contends that both are wanted for the business of the nation. It says:

"All the fear that if the silver of the country was converted into money the price of the metal or value of silver money would be depreciated is without foundation, and the question has only to be examined sufficiently to discover the fact. No more of such property can be obtained than is wanted for money, and the same is true as to gold."

"No change in the plan of making use of gold and silver as the substance for money can be made by people without harm to business and the progress of nations, until the people are so cultivated and wise on matters of government and society and business that other property of a nation can be used as the security of currency, and when such period arrives the change must be made and the precious metals bestowed to the uses of the arts and sciences of all nations. Such period is far in the future, and when it is come a knowledge will have been obtained upon the nature of the metals and the means of making them as perfectly as ice can be made from water as perfect as that made by the process of nature."

"What people must soon discover is the fact that no more of such metals are ever to be found in the mines than are wanted for money, and a person might as well claim that some of the products of food should be put out of use because some people suppose that more of such products can be obtained than can be used as food in the future. In another generation the people will be afraid that such metals are to be exhausted in the mines, as they are now fearing in many places the exhaustion of coal and iron and natural gas. It is a fact that in the future the closing of the production of such metals will be seen and the people of the world be compelled to adopt a substitute for them for money, or its security."

"Every dollar of gold and silver will be more precious in the future, and the measure of the metals in the mines of the world can be approximately taken to-day, and it has been done to some extent by persons of knowledge on such a subject."

"The end can be partly seen, and the period of the supply can be partly observed now. No power in the world can prevent the closing of the mines in the future, and the production of a substitute for both gold and silver when the sources of such metals are exhausted. An exhausted mine in any part of the world is a perfect prophecy of the future of the business of mining."

WHAT STATISTICS DISCLOSE.

The McKinley bill, which its advocates claimed would reduce the imports and increase the exports of the United States is having a directly opposite effect on trade. That bill has been in operation over two years and the assumptions of its supporters are not sustained by facts. The chief of the bureau of statistics, in his statement to the secretary of the treasury, reports the total value of exports of merchandise from the United States during the year ending April 30, 1893, to be \$343,394,447, a decrease of \$162,748,746 from the preceding twelve months. The value of imports during the year ending April 30th the last was \$226,151,988, an increase of \$34,006,617 over the previous year.

As there is nothing to be gained by under-estimating the value of exports it may be assumed that the figures of the bureau of statistics are correct so far as the value of exports are concerned, but as it is profitable to defraud the revenue by under-estimating the value of imports it is probable that the figures of the statistician fall far short of the value of imports. That there are millions of dollars worth of goods smuggled into the United States annually will not be doubted. The accidental discoveries at the San Francisco and New York custom houses prove that fact beyond dispute, but leaving that out of consideration the statement of the bureau of statistics show an increase of imports in the last twelve months of nearly \$100,000,000 and a decrease of exports of nearly \$183,000,000 during the same period. The conclusion is therefore inevitable that the McKinley act, with its reciprocity attachment, did not give the producers of the United States a better market for their products, and that under its provisions the value of imports increased more than ever before in the same length of time. This great change in the balance of trade may be due to other causes than the McKinley bill, but whether it is or not it is now pretty generally attributed to that measure.

EASTERN papers are commenting on the fact that Chairman Clarkson in his speech at the Louisville convention did not mention "protection and reciprocity," the battle-cries of the old Republicans in the late campaign, and are asking if the young Republicans have thrown those principles to the wind.

The Denver News says the men who voted for Cleveland and "hollered" for free coinage feel like the boy who tried to hold the mule by its heels.

The order of the Chicago directory opening the world's fair grounds on Sunday has been rescinded.

SERIOUS ACCIDENT

At Chicago—A Floor Gives Way and Seventy-Five Women Fall Twelve Feet.

By Associated Press.]

CHICAGO, May 20.—A distressing accident marred the closing day of the week's series of the women's congress in the art institute building. There was an attractive program in Washington hall and a great crowd of women had gathered at the entrance, struggling to get in, when a section of the flooring 20x30 feet fell and gave way, precipitating seventy-five women to the ground below, a distance of twelve feet, in a struggling mass. The air was at once filled with cries of pain and terror. Almost a panic spread to a large audience already gathered in Washington hall. Assistance was procured as quickly as possible, and the frightened and disabled women were extricated. When all had been gotten out it was found that eight were seriously, though none fatally, hurt. Many others were more or less shaken up, but not injured enough to require assistance in leaving the building. So far as learned no prominent members of the organizations represented was hurt. The injuries were mostly to women who came as spectators, chiefly from this city, and consisted of dislocation of joints and sprains more painful than dangerous. The subject to be considered was dress reform, and addresses were to be delivered by Alice Timmins Toomey of California on "The Ethics of Dress," and other prominent women of this and other countries.

A NEW RAILROAD.

It Will Connect the Carson & Colorado With the Southern Pacific.

Special to the JOURNAL.]

LOS ANGELES, May 20.—An important railroad contract has been awarded within the past few days and is regarded as a definite step toward the much-talked-of railroad from Los Angeles to Salt Lake city. The contract was given by the Los Angeles, Owens Valley and Utah Railroad Co., to F. E. Green of this city to construct a line of railroad from Mojave to Independence, a distance of 150 miles, the cost to be about \$2,100,000 and the work to be done within nine months.

The same company is building a canal 110 miles long to run from 16 miles above Independence to the end of Indian Wells valley. By the means of this great irrigating main it is intended to open for settlement 338,000 acres of land, and the new railroad will pass through these lands. Frederick Stook, president of the company, states work will commence on the new line as surveyor H. L. Ryan and his corps of men return, which will be about the 28th inst. He says the line is entirely independent of any other company. It is to be built entirely with English capital, and that the bonds of the road have all been sold. Surveyors will lay out a route to Los Angeles from Mojave coming through San Fernando Valley by way of Pacoima. It is proposed after this is done to survey a line to Salt Lake with a view of securing eventually a through line from Los Angeles to Salt Lake.

The Derby, Won by Buck McCann.

Special to the JOURNAL.]

CINCINNATI, O., May 20.—The spring meeting of the Latonia Jockey Club opened to-day with about 8,000 people in attendance. Just before the Derby was run a heavy shower came up, leaving the track wet and slippery. The time throughout was very poor.

Betting on the Derby was spirited. Boundless was favorite at 2 1/2 to 1, with Walnut a good second at 8 to 1.

A pretty start was made with Sabine in the lead and Boundless second. Midway stepped to the front at the first quarter and led a troop with Boundless a length behind; the rest bunched. Turning into the stretch Boundless led, with Midway and Sabine close behind. Then Buck McCann began to move forward. In a movement McCann was side by side with Boundless, Midway whipping hard to catch them. Down toward the wire they came riding hard. In the last fifty yards Buck McCann moved slightly forward and passed under the wire winner by a neck.

Racehorses En Route.

WINNEMUCCA, Nev., May 20.—Several horses of Tom Williams' racing stable, which stopped over at this place last Tuesday on account of the illness of Cadmus, the crack of the string, left this afternoon for Chicago. Cadmus is suffering from pleuro-pneumonia and is a very sick horse. He is at the stable of Ed Williams, under the care of Dr. Masero of San Francisco who thinks he will recover. Cadmus is in nomination in Tom Williams' stable for the American derby next month.

They Will Be Deported.

Special to the JOURNAL.]

WASHINGTON, May 20.—To-day the Chinese minister and official, interpreter of the legation called at the department of state, and they were immediately shown into the secretary's private room, where a consultation ensued, lasting nearly half an hour.

When Secretary Gresham was asked for information upon the subject he said he felt that he could safely declare that there was no reason to fear any trouble of an outbreak either in the United States or China growing out of the Chinese law.

Later in the day Chief Justice Fuller, who has shown much interest in the legal aspect of the present Chinese situation, had an interview with Secretary Gresham.

Secretary Carlisle said to-day that he would certainly enforce the law as to deporting Chinese as fast as the means at his disposal would permit. He intended to begin with that class of Chinese who were in this country illegally. Having sent this class out of the country he would then turn his attention to the other and larger class—those who failed to comply with the Geary law as to registration. But \$16,000 remains of the appropriation for the present fiscal year to carry out this law, but \$50,000 will be available for the purpose on July 1st next.

Attachment Suits.

Special to the JOURNAL.]

FRESNO, May 20.—The Polasky railroad, extending from this city to Polasky, was attached to-day by Sheriff Scott, to satisfy a mortgage of \$46,800, held by the Pacific Improvement Company.

A foreclosure suit was also filed against John Brow of the colony at Madera for \$120,000.

A Long Distance Walking Challenge.

By Associated Press.]

PARIS, May 20.—The champion long distance walker, Lardoux, will challenge two competitors to walk to Chicago by way of the Siberian ice fields and Alaska, the winner to receive 20,000 francs.

Weather Forecast.

Special to the JOURNAL.]

SAN FRANCISCO, May 20.—The forecast for Nevada is fair weather and warmer.

UNCLE SAM'S CAPACIOUS PURSE.

The Enormous Bulk of Coin Accumulated in the Treasury.

Two hundred and fifty freight cars would be required to carry away from Washington the silver dollars which are stored in the single vault of \$38,000,000. Putting it that way gives a more vivid notion of the bulk represented by the stores of coin accumulated beneath the treasury. No wonder that the counting conducted by sixty experts occupies from two to three months and costs \$3,000. The operation is performed in the presence of a committee, one member of which is appointed by the outgoing treasurer, one by his incoming successor and the third by the secretary of the department.

The treasurer gives a bond of \$250,000, but no bond is supplied by any of his subordinates. If one of the latter should prove a defaulter the treasurer would be obliged to make up the deficit out of his own pocket. However, congress would doubtless pass a bill for his relief in such a case.

J. N. Hudson, President Harrison's first treasurer, said that no trust company would assume the responsibilities of his office for the \$6,000 per annum salary attached to it. Nevertheless, there have been many applicants for the position under Mr. Cleveland. When the count of the money is completed the new treasurer will sign a receipt in full. The receipt signed by Mr. Nebeker was for \$664,816,445 55.—Boston Transcript.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We would not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at S. J. Hodgkinson's drug store. Large size 50c and \$1.

For Scrofula

"After suffering for about twenty-five years from scrofulous sores on the legs and arms, trying various medical courses without benefit, I began to use Ayer's Sarsaparilla, and a wonderful cure was the result. Five bottles sufficed to restore me to health."—Bonifacio Lopez, 327 E. Commerce St., San Antonio, Texas.

Catarrh

"My daughter was afflicted for nearly a year with catarrh. The physicians being unable to help her, my pastor recommended Ayer's Sarsaparilla. I followed his advice. Three months of regular treatment with Ayer's Sarsaparilla and Ayer's Pills completely restored my daughter's health."—Mrs. Louise Rialle, Little Canada, Ware, Mass.

Rheumatism

"For several years, I was troubled with inflammatory rheumatism, being so bad at times as to be entirely helpless. For the last two years, whenever I felt the effects of the disease, I began to take Ayer's Sarsaparilla, and have not had a spell for a long time."—E. T. Hansbrough, Elk Run, Va.

For all blood diseases, the best remedy is

AYER'S Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 25c; six bottles, \$1.50.

Cures others, will cure you

A GENTLE WOMAN

Wishes a toilet cream to promote that

Efficient Transparency of the skin, which is the true beauty of the complexion.

She wishes it to have the true fragrance of the flowers and the gentle tonic action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

At Coleman's barber show, hair cutting 25 cents, Monarch saloon.
Attorney-General Torreyson returned from California yesterday.
Pugh & Cook are engaged in paper-hanging at the Newland's residence.

Crockery and glassware at San Francisco prices at Lange & Schmitt's.
Marcus Fredrick went up to Carson Friday, returning on yesterday's local.
The university graduates will give a commencement ball on the evening of June 9th.

Feeble and delicate constitutions gain great benefit by the use of Ayer's sarsaparilla.

Judge Benj. Currier paid Carson a visit yesterday, returning on last evening's V. & T.

Dr. Porter extracts teeth without pain. Office, Scudderland building, Virginia street.

It is the fashion in Oregon to name babies Pennoyer, after the man who is minding his own business.

Mrs. D. A. Bender and daughter of Carson passed through yesterday homeward-bound from San Francisco.

There are said to be seven men living in one township in North Carolina who have passed the age of 108 years.

J. A. Waddell of Hawthorne arrived here night before last. He goes to the world's fair by the southern route.

Judge Cheney who was holding court in Virginia city yesterday for Judge Rising, returned on last evening's V. & T.

The cool air from the snowed Sierra Nevada swept down into the valleys yesterday and created a pretty stiff breeze.

Mrs. M. D. Foley, daughter of W. E. Griffin of Wells, Fargo & Co.'s office is visiting the Comstock from Reno.—Chronicle.

The Belmont Courier says the best wine on the coast is made from grapes produced in the vineyards of southern Nye county.

Chronic constipation is a troublesome and dangerous disorder. The surest and safest remedy is Ayer's cathartic pills.

N. J. Foxwell of Verdi visited Reno yesterday. He says Verdi, though a small place, gives employment to a good many persons.

In the fourth California internal revenue district, which includes the state of Nevada, 2,528 Chinese have registered under the Geary act.

The foundation of Hymers' new stable is being laid by a force of masons. Mr. Hymers will erect a large and substantial brick building.

The Chronicle says there was a hurricane on the Comstock all day yesterday and night before last. It was the heaviest blow of the season.

Floods throughout northern Idaho and western Washington have reached the highest point known, and the damage already done is immense.

With but little care and no trouble, the beard and mustache can be kept a uniform brown or black color by using Buckingham's dye for the whiskers.

The premises on Second street owned by Gardner Chism and badly scorched by the late fire are being repaired. A brick foundation will be built under the house.

The Delamar Mining Company of Owyhee county, Idaho, has purchased two-fifths of the Stoddard mine, which adjoins its property, of Timothy Regan for \$100,000.

There is a probability of a general strike of the operators on the northwestern railroad. They submitted a schedule of wages and will strike on Monday if it is not accepted.

A lodge of Odd Fellows is to be instituted at Greenfield next Friday night, says the Tidings. A delegation from the Dayton lodge and prominent Odd Fellows from other points are expected upon the occasion.

The publishers of the Sacramento News have engaged counsel and made arrangements for the arrest of an unregistered Chinese laborer to test the law and see what disposition the authorities will make of the Chinaman.

John McCormick, who came west from North Dakota in search of health, has found it in Reno and has purchased some land and sent for his family with the intention of remaining here permanently.

A tragedy was enacted in the courtroom at Danville, Ind., yesterday. Caleb Brown, president of the Lebanon Gas Company, incensed at the remarks of Samuel Wisner, a prominent lawyer, shot him dead in front of the judge's stand.

Do you know that when your shoes glisten with a polish they are really covered with diamonds. A Philadelphia shoemaker says such is a fact. Bone dust, which is the principal ingredient of shoeblacking, is almost pure carbon and when this blacking is smeared over your shoes the friction of the polishing brush converts it into millions of infinitesimally small diamonds.

AN EARLY MORNING BLAZE.

Joe Fleming's Residence Completely Destroyed.

At about 1:40 o'clock this morning the slumbers of our people were disturbed by the shrill whistle of a locomotive, which, in short, loud whoops, announced another fire.

Will Murray and Hiram Remington, who were the first at the engine-house, endeavored to ring the fire bell, but after two or three taps the rope connected with the tongue of the bell broke, which rendered it impossible to continue the alarm.

A large blaze was seen in the northern portion of town, and, following in that direction, the fire was located at the residence of Joe Fleming, situated on Fourth street, between Chestnut and Nevada.

The JOURNAL force, a number of whom are members of the fire department, with the assistance of one or two other persons, succeeded in getting one of the hose carts out of the house, and Jim Steele, who was there with his one-horse buggy, took up the rope of the cart and quickly hauled it to the plug at the corner of Fourth and Chestnut streets.

A stream of water was soon turned on the flames, but from the first it was apparent that it was not within the power of the fire boys to prevent the destruction of the dwelling, but the flames were kept down so that the danger to adjoining residences was lessened.

For some unaccountable reason but one of the three hose carts was taken to the fire, and it was nearly half an hour after the stream from the plug was turned on before it was necessary to start the engine.

A stream from a small garden hose was played on the roof of Henry Johnson's house, which adjoins the burning dwelling on the west, and by this means that building was saved. The small house was operated by young "Sully," a lightweight pugilist of considerable note. There was no wind, for which the people of that neighborhood can be thankful.

The Fleming residence with most of its contents was entirely destroyed.

THE ORIGIN.

The origin of the fire is not known, but it started from the rear of the building. Mr. Fleming's family is absent from town, and it is said that Mr. Fleming himself was also absent, having left town last evening in a buckboard.

At any rate, he was not seen about the fire, and if he is not out of town it is feared he was consumed in the flames.

The building and contents is estimated at about \$3,000, and is insured, but for what amount could not be learned.

The adjoining residences were not even scorched.

What a "Journal" Reporter Found.

As a JOURNAL reporter was taking a stroll yesterday in the foothills adjacent to Reno in quest of doves he saw two men tearing wildly through the sagebrush, up and down hill without any apparent object or destination in view. After watching their movements for some time, he came to the conclusion that they were a couple of escaped lunatics of the asylum, and immediately started in pursuit, and noticing the direction they were taking, took a short cut and intercepted them. As they approached he hailed them and asked them their business in that locality. The reply was somewhat of a surprise. The foremost gentleman stated that his name was Mick Dunn and his companion was Hugh Napier.

Mr. Dunn stated that he was taking his regular every-day course of training for his contest with Frank Purcell, which is to take place in McKisick's Opera House on the 27th inst., and that the gentleman accompanying him was his trainer. Mr. Dunn stated that before he returned to his headquarters he would run and walk a distance of twelve miles. After conversing with the gentleman the reporter gleaned the facts that he is diligently training for the coming contest, and if nothing unforeseen interferes will go into the ring in the best of condition, and is confident of besting his antagonist.

Word comes from Carson to the effect that Mr. Purcell is training hard, and there is every reason to believe that the fight will be a good one and that the best man will win. The contest is to come off on the 27th of this month, and all who attend are assured of witnessing a contest to which no one can take any exceptions.

THE CLERKS' LEAGUE.

By a notice in another column it will be seen that the Reno clerks' league will hold a meeting to-day for the election of officers for the ensuing term, Louis Cohn is president and Ralph Hussey secretary of the league at the present time and both deserve the highest encomiums for their able manner of conducting its business. Although their duties have been few compared with previous years, yet the members knew they could place all reliance on their officers in case of necessity.

The league itself has done much good in protecting the clerks of Reno in the way of fixing a reasonable hour for the completion of their day's work, but never has anything in this line been done that would act as a detriment to their employers.

According to newspaper reports Senator Stanford has nearly as much influence in getting men appointed to federal positions as the "mixed" Democrats of Reno. It is said that he was instrumental in getting a place for General Irish.

Professor Wilson, Professor Thurtell and Dr. Fredrick left for Virginia city yesterday on bicycles. They expected the wind to propel them up the Geiger grade.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder
ABSOLUTELY PURE

HINTS FOR HOUSEKEEPERS.

Matters of More or Less Interest to Women.

The best way to renovate ribbon is to first steam it and then sponge it off with beer.

A simple way to remove grease spots from wall paper, caused by the head resting against the wall, is to hold a piece of clean blotting paper over the spot and press a moderately warm flat-iron over it. Repeat the operation until all the grease is out.

Lemon juice is the only harmless remedy for freckles. It will, however, require months of attention to efface these blemishes from the skin. Powdered nitre and cornstarch in equal parts, applied with a linen cloth that has been dipped in glycerine, is said to be a reliable cure.

Colored table linen may be successfully manipulated by washing it in tepid water in which has been sprinkled powdered borax; wash quickly, using but little soap, and rinse in tepid water containing boiled starch; dry in shade, and when still quite damp, iron.

A new and fashionable stuff is whipcord, a sort of diagonal, serge-like material, very suitable for spring wear. The colorings are charming. All the newest shades are to be had in it and this year so very much depends upon color.

Not only has fashion turned its back most decidedly on the hoopskirt, but it is growing very grudging of its notice of even crinoline, which is too stiff and unwieldy to ever become universally liked or adopted.

One of the new colors of the season is oriental red, which appears in most of the new fabrics. It is a handsome dye, between a deep crimson rose and a rich dahlia color. It is alike becoming to dark and fair women and also to the neutral-toned type. It is a hue so subdued that it is not in the least conspicuous.

Violent cases of dyspepsia are often cured by refraining from liquids entirely. Never drink at meals, and if thirsty between times sip a little hot water slowly. Little by little hot as the person grows better, he or she can take coffee, even tea, at their meals. Where chronic dyspepsia exists, generally the person must be guided by what is found by experience to agree.

It is a great mistake in buying gloves to fit the left hand, unless the woman is left-handed or ambidextrous. The right hand is the larger, and if a comfortable fit is desired the right glove should be tried on. Only ignorant women wear tight gloves. Aside from comfort and suitableness, an easy-fitting glove wears better than one that is too small. Hands that come out of tight kid gloves usually stay red for a while, as the circulation is impaired in the vice-like covering.

Church Notices.

Baptist Church.—Preaching at the usual hours both morning and evening. All are cordially invited to attend these services.

M. E. Church.—This Sabbath at the M. E. Church in the morning our theme will be "Manliness," and in the evening, "The Wells of Salvation." All are invited.

Catholic Church.—There will be no service in the Catholic Church to-day owing to the absence of Father Kelly, who is in San Francisco.

Congregational Church.—Services to-day at 11 A. M. and 7:30 P. M. Subject of morning discourse, "The Need of Prayer;" evening, "The Price of Success." Sunday school at 12:15 P. M. All invited.

Trinity Church.—Holy communion at 7:30 A. M.; litany, sermon and holy communion at 11 A. M. Evening service at 7:30.

Clerks, Attention!

There will be a meeting of the league at their rooms, Nos. 9 and 10, First National Bank building, to-day at 2 P. M. for the purpose of electing officers.

By order of the president.

David M. Prosser of Reno has been granted a patent for a wood-sawing apparatus, which consists in the combination of one or more saws with adjusting and operating mechanism, and a saw-buck upon which the wood is placed with means of retaining it in place while being sawed. The apparatus is designed to cut wood into 12, 14 and 16 inch lengths.

NEVADA'S DISPLAY.

A Very Creditable Exhibit of Grain, Minerals and Ores.

"Although Nevada's small appropriations do not permit of the erection of a building at the world's fair the state has creditable exhibits in several buildings, and all its displays are now in place. These are under the charge of J. A. Yerington, son of the well-known Nevada mining and railroad capitalist. Thirty days after the appropriation was made Mr. Yerington had his exhibits packed and on the way to Chicago. Sixty varieties of grain are shown in the agricultural building, and in the horticultural building will be shown in a few days figs, apricots, grapes and other fruit from the Colorado river in Lincoln county. In the mining department Nevada naturally makes a superb exhibit. Gold and silver ore in every variety is shown, as well as beautiful specimens of wire gold and wire silver, ruby and silver. A unique exhibit is a specimen of verisite weighing fifty pounds. Another exhibit that is attracting great attention consists of the Carson prehistoric footprints. As these remains were discovered under eighteen feet of solid rock, scientists are much exercised over their age, and whether among the tracks of animals there may not be some human footprints."

The above is from the San Francisco Chronicle, which also refers editorially to the display as follows:

"Nevadans who go to the world's fair will have just cause for pride in the display made by their state. Though the appropriation was only \$10,000, such has been the energy put into the work by J. A. Yerington, the chairman of the Nevada commission, that the state is represented by a valuable and interesting collection, a large assortment of grain and many varieties of gold and silver ore. When the fruit along the Colorado river begins to ripen Nevada will outstrip Southern California in early figs, apricots and grapes unless some of our horticulturists along the edges of the Colorado desert bestir themselves. It is gratifying to note the success of Nevada at the fair, for the Sagebrush State has been so often represented as a desert that it is time that the world should know it as it is—a land in which every product of temperate and semi-tropic climates may be grown successfully with irrigation."

THE ENCAMPMENT.

Friday afternoon at 4 o'clock the cadet company at the university went into camp in regular military style. The north campus is now laid out in streets and squares of tents. There are thirty-six tents in all, one to every two privates and one to each of the commissioned and non-commissioned officers.

Friday evening the company christened the camp "Camp Neall," with three rousing cheers.

All the cadets are obliged to be in camp from 6 P. M. to 6 A. M.; each cadet supplying his own bedding. Sentinels are posted at regular intervals and no one is allowed to enter or leave the camp without the countersign.

The boys found it rather cold walking guard Friday night. One of the sentries was so cold that when the guard came to relieve him he thought the enemy was making a raid on the camp and was about to do some deadly work with his bayonet, but fortunately recognized the corporal in time to prevent fatal results.

Lieutenant Neall is in charge of the camp and strictly enforces all military rules. All lights must be out by 10 o'clock, but before that time arrives the boys find plenty of amusement. They indulge in running, jumping, tug-of-war, etc., and besides there are several good musicians in the camp who entertain the cadets with cornet, violin, harmonica, clarinet, banjo, piccolo, etc. These amusements, however, are not allowed to interfere with their duties, and school work progresses as usual.

Visitors to the camp have not been overly numerous thus far, but during this week the number will probably be largely increased.

Hugh Napier, who is training Mick Dunn for his match with Frank Purcell, which comes off on the 27th inst., received a telegram yesterday from Joe Harris stating that he had made a match for him with Bobby Burns of Chicago for \$3,000. Mr. Napier has accepted the challenge, and will leave for Chicago the night following the contest between Dunn and Purcell.

Jack Godfrey serves a first-class meal and fresh oysters in every style at the Palace Restaurant. Meals at all hours.

Reno Reduction Works.

The Reno reduction works are prepared to reduce ores, and will pay the highest price for gold and silver ores consigned to them at Reno. H. H. Beck, superintendent of the works, has succeeded in getting a rate of 1 cent per ton per mile from the Southern Pacific Company for all ores shipped to the works from points along the road. This is as cheap transportation as can be expected. The works are situated on the Truckee river, and are run by water, which is the cheapest motive power yet discovered. The works are conducted by a practical metallurgist, R. D. Clarke, and ores are treated by the most approved modern processes. If miners have ores that will yield even a small profit at the present price of silver they should ship them to Reno and give the works a trial, as the rates of transportation and cost of reduction are very low.—Lyon County Times.

A Lender.

Since its introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of the Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c per bottle. Sold by S. J. Hodgkinson.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson.

A Dying Man's Scheme.

George Francis Cushman, a spiritualist of Muskegon, Mich., has perfected a scheme, he thinks, by which he hopes to death to be able to prove positively to those still in the material state that his spirit exists. He went to Pittsburg a short time ago and obtained a large glass cylinder, so constructed that it can be sealed airtight quickly. In this cylinder he has suspended with fine copper wire two pieces of metal so light that they may be brought in contact with each other by the slightest motion of air within the cylinder. Wires pass through the cylinder, one being connected with a battery and the other with a telegraphic instrument.

He has made arrangements for his friends just before the spirit leaves his body to seal him in the cylinder so that his spirit may be kept from departing, and at the same time is enabled by a series of systematic disturbances of the air within the cylinder to communicate with his friends through the telegraphic instrument. He is dying with consumption, and the public probably will not have long to wait for the test of his experiment. If it should prove successful, his friends are pledged after three days to unseal the cylinder and allow the spirit to depart and then seal up and bury the remains.—Pittsburg Dispatch

THE KEELEY CURE.

AN INSTITUTION POSSESSING THE SOLE AND EXCLUSIVE RIGHT To Sell and Administer in the State of Nevada the

DOUBLE CHLORIDE GOLD REMEDIES.

Discovered and prepared only by Dr. Leslie E. Keeley, of Dwight, Illinois, for the cure of the
